Quick Connection Guide Using Speed Dial

To begin with

Turn on your Video Communication System and TV monitor, and check the following to ensure that connection is possible.

1. Is the picture of your camera (local picture) on the monitor screen?

When using the LAN

1. Is the LAN indicator highlighted and is the IP address displayed?

When using the ISDN

1. Are one or more ports of the ISDN indicator highlighted?

Main indicators that appear during communication

- FAR: Controlling a remote camera
- MIC OFF: Local microphone is turned off
- Sending a still image
- Receiving a still image
- Sending or receiving a computer screen
- Sending or receiving data from a whiteboard
- Receiving dual video

Let’s connect

1. Verify the “LINE I/F”.
2. Select the Number text box and press PUSH ENTER.
3. Select “Dial” and press PUSH ENTER.
4. The system dials and establishes communication.

For details on operations, refer to the Operating Instructions (stored in the supplied CD-ROM).
Remote Commander Guide: Operations available during communication

For details on operations, refer to the Operating Instructions (stored in the supplied CD-ROM).
